Subject: DMV Testimony

I am definitely in support of House Bill 5041 (to privatize DMV services.) This agency has taken a bashing recently and it's time to my make it function more efficiently, we have the brains and power to do an easy fix.
I prefer to go to a AAA office as there is no guesswork on days and hours that they are open. There (in my experience) is never a long line/waiting period. Please!!!!!! Can we start to uncomplicate simple things???? Seniors especially do not need added problems!!!!!! I would love to see Connecticut (my favorite state) to be admired for getting things done quickly and efficiently. Thank you.
